U.S. Alerts Navy, Air Force Units As Precaution After Suez Flareup

International News Service

UNITED STATES military units were revising schedules and deployment plans Thursday in a "tighten defenses without flexing muscles" move as a result of the Suez and Hungarian crises.

Ships of the U. S. Pacific Fleet were ordered to speed their westward movements and Atlantic Fleet vessels, including the super-sized aircraft carrier Forrestal, are assembling into a powerful task force in the Atlantic.

AT THE SAME TIME, the Air Force announced that it has revised its global flight schedules so that a "large percentage" of its jet fighters and atomic bombers will be in the air at all times, ready for emergency action.

Meanwhile, well informed diplomatic sources said Israel has accepted President Eisenhower's plea to remove its troops from Egypt and cooperate fully with the United Nations police force.

The Defense Department announced Wednesday that all normal training for air and sea units had been abandoned under a "Readiness Alert" ordered by the Joint Chiefs of Staff when the Egypt-Israel conflict erupted Oct. 29.

A PENTAGON spokesman said the "readiness" movements are continuing despite the lull in the Middle East fighting. The spokesman said the redeployment orders had these objectives

1. To assure dispersal of ships and planes as a safeguard against any possible repetition of the Pearl Harbor debacle which plunged the U. S into World War II.

2. To station powerful units at points from which they could strike strategically should the Middle East conflict or the tense situation behind the Iron Curtain explode suddenly into a general war.

Acceptance by Israel of Eisenhower's plea would mean a sharp reversal of Ben-Gurion's assertion that Israel would bar any foreign force from territory her troops are occupying.

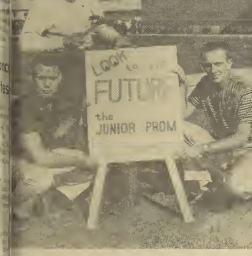
THE DEVELOPMENT came Thursday after Premier Ambassador Herve Alphand held a secret 20-minute conference with Eisenhower. Alphand told newsmen:

"I saw the President at the request of my government. I cannot make any statement."

The Ambassador declined to say whether the conference was in connection with the Middle East crisis, but from other sources it was determined that the conflict in which Britain and France have intervened was the topic discussed.

Earlier, the President held a special one-half-hour meeting with his top strategic advisors to work out plans for the U. S. Air Force to airlift the U N Middle East police troops and to counter Soviet threats in the strategic, oil-rich area.

EISENHOWER met with the National Security Council as nine foreign envoys conferred with various top-level U S diplomats on the Middle East problem.



WHAT ALREADY? ? ?—Yes, members of the junior class are beginning and preparing for one of the big occasions of the year, Placing the early reminder are (l to r.) Lynn Hemenway, Ron Lee and Roger Victor. (Photo by Sally Arnold)

Study Facilities Expand To Ease Overcrowding

Study facilities have been expanded for Brigham Young University students.

Rooms have been made available in the evenings in the McKay Building, according to Noma Rich, librarian, for students to use as study rooms.

Students who "don't absolutely need to use library facilities" are urged to use the McKay Building rooms to leave spaces for those who need to work in the library, Miss Rich said.

Three rooms have been set aside for study.

Room 212-213 will be open from 7 p m to 10 p.m. on Mondays through Saturdays, room 263 will be open from 7 p.m. to 9 p.m. on Monday through Thursday and room 115 will be open from 8 a.m. to 5 p.m. Mondays through Fridays

Opening of rooms in the McKay Building for study is expected to ease crowded conditions in the Grant Library which make it necessary for students to wait on steps to study

Panel Discussions Conducted Today On Art Collection

A program relating to the Guggenheim paintings, now on display in the mezzanine of the Spring Science Center, will be given Friday at 7:30 p.m in the foyer of the same building.

Featured will be a panel discussion and short sketches of the history of each of the artists represented in the exhibit.

Moderating the panel will be Dr. Conan Mathews, new art department chairman. Other panel members are Ray Hillberg, Evelyn Remek, Maynard Gunter, Ervel Anderson, Lee Krail, and Dale Fleiher, all graduate instructors in the art department.

The 13 paintings are from the collection of the Solomon R. Guggenheim gallery in New York City.

Junior Prom Gets Started; Administration Gives O.K.

It's not too early to plan for Junior Prom, Roger Victor, prom committee chairman, announced

Preliminary plans for the Junior Prom scheduled for April 12 and 13 are underway.

Administrative permission for the booking of a name band has been secured

Victor announced this week. He added he has signed a legal eye ma with one of the most prest proms in the history of Brigham Young University."

The Junior Prom committee consists of Roger Victor, chairman; Leon Garrett assistant chairman and committee members, Kay Brockbank, Webb Crockett, Jerry Wray, Carl Mitchell, Marcile Thomas, Pat Olsen, Owen Bae, Donna Hamilton, Karen Curtis, Elaine Sturland, Joyce Stephenson, Lyne Hemenway, Fausett, Rust, Colleen Thomas, Pan Lee, Keith Price, and Roger DeMordaunt.

Hubcap Engraving Slated Monday

Brigham Young University students can have their automo hubcaps engraved with re

Ronald Peterson, Los Altos, Calif., student chairman of the tariffe committee, heads the project. The engraving will be done Monday and Tuesday from 9 a.m. to 4 p.m. in the vacant lot by the Smith Building adjacent to the Manual Arts Building.

Two students will be at a table in the lot with the engraving machines.

Students are asked to park their car on the lot, remove the hubcaps and take them to the table to be inscribed

The owner's registration number only will be inscribed on the hubcaps. Registration slips must be brought.

The tariffe committee urges car owners to take advantage of the project in order to help curb the stealing of automobile equipment from student cars in Provo.

Class Project Vote Scheduled On Five School Improvements

Balloting for the sophomore class project will be conducted Monday.

Five proposed projects, selected by class project committee, will be voted upon. Voting will take place from 8 a.m. to 4 p.m. at booths in Spring Science Center Smoot Administration Building and Service Building.

Each booth will be manned by a member of the class project committee.

One proposed project calls for beautifying the "lovers lane" between the Manger Building and the Smith Fieldhouse. The lane is overgrown would be cut back to the once prominent size at Brigham Young University, according to the proposal. project chairman.

Three of the other projects deal with the new Student Union Building. Proposed projects include furnishing murals for the lobby display cases and the furnishing of senate chambers

Another proposal is the planning of a large welcoming sign at the entrance of the university.

Approximately $300 has already been collected for the project from class members. The balance is to be collected tomorrow with class dues of registration reports Miss Wood

Members of the Sophomore project committee are chairman Georgiana Wood, Twin Falls Ida. Beverly Whitford Lovell, Wyo. and Connie Waddoups, Bountiful.

Greek Tragedy, 'Oedipus Rex' Coming Dramatic Production

by Valerie Hill
Daily Universe Writer

Rehearsals are now under way for "Oedipus Rex," a Greek tragedy by Sophocles, which will be presented next Wednesday to Saturday in the Smith Auditorium.

Directed by Dr. Harold I. Hansen, chairman of the speech department, "Oedipus" provides overwhelming drama. The play is a marvel of suspense, pace and mounting excitement

The story tells how the king, ignorant of his unnatural situation, tracks down every particle of evidence that ultimately brings him face to face with his own pollution.

Oedipus is played by Dr. Lael J. Woodbury, Provo, while Jocasta is played by Georgia Finch, also of Provo.

Other members of the cast include Thomas Macauley, Oakland Calif.; Charles Whitman, Montpelier, Ida.; Mal Golightly, Provo; Nathan Smith, Wendell, Ida.; Gary Stewart, Karpville; Makee Blaisdell, Hauula, Hawaii; and Randy Buchanan, Venice.

Attendants are Richard Davis, Payson, and Bonnie Eddington. The chorus consists of Randy Buchanan, Donald Dew, Charles Nielsen, Barbara Reed Fowell, Stan Porter, Robert Fank, Bill Southwell, and Rick Anderson.

Dr Hansen is assisted by technical director Robert Andrews. Winnifred Bowers is in charge of costume design.

According to Dr. Hansen, tickets went on sale Thursday at the Smith Information Booth. Reserved seats are free to students with the presentation of their activity cards

BYU Checks Delayed

Payroll checks for Brigham Young University employes will be delayed half-a-day Friday

Checks will not be available until 1 p.m Friday, instead of the regular 8 a.m. hour, according to Mae Cree Grimmell, payroll director.

Checks are disbursed at the Cashier's office, basement, Maeser Building.

Weekend Promises Cold Thrills
(see Page 8)

BYU Women Play Host This Weekend To 100 Utah Coeds at State AWS Meet

Intercollegiate Association of Women's Students state convention, "Future at Our Fingertips," will be held Saturday at Brigham Young University, according to Chairman Jeanne Wilkins.

One hundred representatives from all Utah universities are expected to attend the event.

The welcome session at 9 a.m. conducted by Bonnie Berrett, Associated Women Students president, will feature guest speakers, Dean Wesley P. Lloyd and Mrs. Lillian C. Booth, coulselor of women.

University of Utah, Utah State and BYU representatives will hold discussion sessions on "How to Improve Inter-School Relations."

Coeds in 30 Heritage Halls apartments will furnish baked ham luncheons for the guests. Presidents of the dorm councils chose the girls to prepare the luncheon.

N.M. Game Viewing Set

Films of the Brigham Young University Cougars' homecoming game with the Lobos of New Mexico will be shown Friday evening.

The Audio-Visual Aids department, which films all BYU games, made this film in color, and will show it with their regular film classic at 7 p.m. in 167 McKay Building.

Who's Got The Scissors?

James Slane, and his wife, would like their scissors and pliers returned.

Somebody borrowed these implements to build their homecoming float at the rear of 735 University Ave., and haven't returned them, Slade says.

He says he's tried to track the borrowers down, but to no avail.

Slade says the tools should be returned to 733 N. University Ave.

Psychologists Set Banquet

Psi Chi, national honorary psychology fraternity, is holding its quarterly initiation banquet Friday.

Scheduled to begin at 7 p.m., the banquet will be held in the home of Dr. Charles Taylor, 1641 Sagewood Rd.

Dr. Frank R. Wilkinson, psychology professor, will be featured speaker, after which a turkey dinner will be served, according to Jay Richardson, president.

Snow, Slick Slopes Don't Def IK's From 'Y' Lighting Traditi

by Jerry Molloy
Daily Universe Writer

LIGHTING THE "Y" is the spirit of Brigham Young University becoming visible before students.

Last Saturday as many were going to the various homecoming dances, they beheld in the eastern sky, (actually on "Y" Mountain), a beautiful outlined black "Y." Perhaps many wondered how it came into being.

The lighting is done by the Intercollegiate Knight pages as a requirement before being knighted.

This service is among those the I K's perform for the studentbody.

THE PROJECT began at 8 p.m. Saturday on the east lawn of the Social Hall. There were 16 pages present, directed by Knight Jim Thorne, Provo.

The decision was made by Paul Webb, president of the I. K.'s, that although it was snowing and the "Y" could not be seen, they would keep the old tradition of lighting the "Y" for Homecoming.

First they obtained a truck in which they collected the necessary materials from various places about Provo. By about 6:30 p.m. they reached the "Y" mountain.

HERE THE pages barehanded, in the snow make the "Y" and lining the "Y." Then each took a bucket or two of (to increase the coverage and grease) and proceeded to mow the snow.

Trouble began as they up the straight slopes and and buckets had to back up for every two steps up.

The snow finally stopped the clouds at times hid view of the valley below.

Overcoming obstacles, reached the "Y" shortly the pages then proceeded to "gook" the "Y" and the necessary preparations.

GEN-ER-ATOR A short the chimes on campus coheard striking 9 p.m.

With lighted torches the started in an orderly lighting the "Y" as the ring the Victory Bell in

After 9 p.m the clouds ers with fly ware dense valley below was a par of lights to behold.

GRADUATES in
Engineering
Physics
Mathematics
Interested in Missile Systems research and development

The technology of guided missiles is literally a new domain. No field of engineering or science offers greater scope for creative achievement.

Research and development at Lockheed Missile Systems Division cover virtually every field of engineering and science and have created new positions for graduates possessing outstanding ability in the following fields:

Electronics
Research and development as applied to missile systems and associated equipment.

Computers
For solution of complex problems and missile guidance.

Systems Engineering
Research and development in missile systems.

Antenna Design
Related to missile guidance.

Communications
In the broad area of information transmission.

Electromechanical Design
As applied to missile systems and related equipment.

Instrumentation
Associated with aerodynamics, physics and electronics.

Physics
Theoretical and experimental: aero-physics, upper atmosphere research, optics and nuclear physics.

Structures
Structural design and analysis of missile systems.

Thermodynamics
Aerodynamic heating and heat-transfer problems.

Aerodynamics
Concerning performance of missile systems.

Dynomics
As related to missile body flight problems.

Operations Research
Applied to tactical weapons operations.

Advanced Study Program
Graduates in Physics, Electrical, Aeronautical and Mechanical Engineering are invited to contact their Placement Officer regarding the Advanced Study Program which enables students to obtain their M.S. and Ph.D. Degree while employed in their chosen field.

M.S. and Ph.D. Graduates
The complexity of missile systems research and development has created a number of positions for those completing their M.S. and Ph.D. degrees. The positions carry immediate responsibility commensurate with the advanced academic training and experience required.

Representatives of the Research and Engineering staff will be on campus

Tuesday, November 13

You are invited to consult your Placement Officer for an appointment.

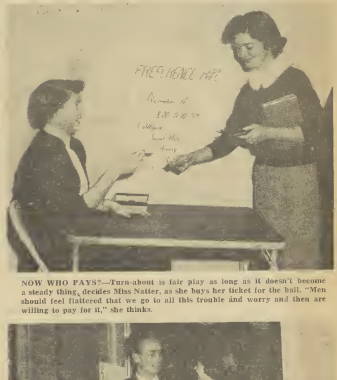
Preference Ball Preparations

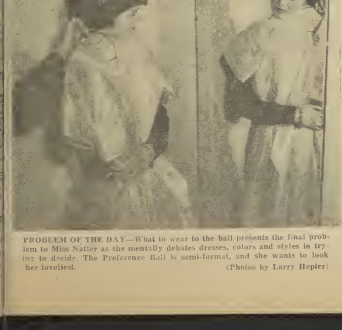
IS HE WORTH IT?—At 6:45 a. m. Anita Van Natter, Wheat Ridge, Colo., wonders if any man is worth the effort of getting down to the Eyring Science Center so early and waiting in a long line merely to prefer him for a dance date.

POSTMAN RINGS TWICE—Lorin Yeates, Denver, Colo., feels that the efforts of Miss Natter were entirely worth while as he opens his mail box to find an invitation to take her to "Estrellita" the 1956 Preference Ball.

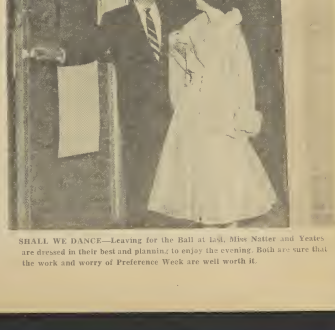
"I'M SO GLAD"—After receiving his invitation Yeates calls up Miss Natter to let her know that he was pleased by her invitation and will be happy to be her preferred man for the dance being held Nov. 17 in the Social Hall, Smith Fieldhouse and National Guard Armory.



NOW WHO PAYS?—Turn-about is fair play as long as it doesn't become a steady thing, decides Miss Natter, as she buys her ticket for the ball. "Men should feel flattered that we go to all this trouble and worry and then are willing to pay for it," she thinks.



PROBLEM OF THE DAY—What to wear to the ball presents the final problem to Miss Natter as she mentally debates dresses, colors and styles in trying to decide. The Preference Ball is semi-formal, and she wants to look her loveliest. (Photos by Larry Hepler)



SHALL WE DANCE—Leaving for the Ball at 8:30, Miss Natter and Yeates are dressed in their best and planning to enjoy the evening. Both are sure that the work and worry of Preference Week are well worth it.

Cats Make Plans For Air Strategy In Big Tilt With Denver Saturday

by Mark Murphy

PASSING AND defensive drills have dominated Cougar practice this week as the Cats prepare for their Denver Universts game Saturday afternoon in Denver.

The Cougars' aerial game received further emphasis from the coaching staff in preparation for the improving Pioneers.

Coach Allan Davis has worked his backs all week on ball handling and pass reception. With Cougar completing 10 passes per game in recent contests, Davis is giving special attention to "bad pass" reception to increase the effectiveness of quarterback Correll Johnston's prolific passing.

THE PIONEERS have presented the Brighams with a defensive problem. Although they are a Split-T team, the Colorados use disconcerted unbalanced line. According to Coach Harold Kopp, Denver used this formation effectively against San Jose State last weekend. San Jose fell to the Pioneers 33-26.

Denver shifts into their unbalanced line expecting to carry the defense along with them and then shoot off the weak side, explained Coach Kopp. The Cougars don't plan to shift with them.

THE CATS are also planning to adjust their passing attack knowing that the Pioneers will be expecting a continual barrage of aerials. "They'll probably rush us hard with seven and eight man lines. Rushing is the best defense against passing," Coach Kopp pointed out.

"Apparently New Mexico made a fatal mistake in not rushing the Cat passers, sometimes having as many as seven men back on pass defense.

The contest looms as a battle between two light, speedy teams. Denver relying mostly on quick breaking ground plays and BYU on the strong right arm of Correll Johnston. However, Denver is dangerous in the air also, with six halfbacks doing most of the throwing.

THE COUGARS are in good shape for the expected rugged tussle with Denver. Weldon Jackson, out with a back injury for two weeks, is expected to be available for full-time duty if necessary. Johnston is healthy and can count on support from both Wayne Stanford and Don Dixon in the passing department.

The Cougars will probably open with the same lineup that faced New Mexico last week-end: Ed Hunt and Tom Clark at ends, Dick Ralph and Wayne Ash at tackles, guards are Jay Weenig and Jim Taylor, Lynn Harding, defensive signal caller and linebacker, will open at center.

The Cat backfield will tentatively be Johnston at quarterback, Bert Baldwin and Johnny Woods at the halves and Ron Jacobson at fullback.

NUMBER TWO?—The Cougars will be pouring out on the field Saturday looking for their second win of the season against Denver.

Sad was the lad who had to walk
He wandered very far.
But then he got in touch with
Jack.
And bought himself a car!

FROM THE

SPORTS DESK

by Jerry Cunningham

SATURDAY WILL mark the first time in many a moon that Brigham Young University football fans can go to a game reasonably sure that they can sit back and watch their team walk all over the opposition.

When it comes to winning football, fans in the Provo area aren't just hungry—they're famished. But, with the varsity's triumph over New Mexico under their belts, the fans shouldn't be starved to find their way back into BYU Stadium at 1:30 when the freshmen will serve them a sumptuous pigskin banquet.

AND IT'S NOT that the Kittens won't have any opposition. Snow Junior College has a fair-to-middlin' ball club. After all, they were only edged one touchdown by one of the finest junior colleges in the West, Dixie. So it should be a good game Saturday.

What's that? Did somebody say that BYU's frosh got roasted by Dixie, 53-6?

AT THE BEGINNING of the year, BYU's freshman team looked great on paper—lots of brawn, speed and depth, liberally peppered with all-state prepsters. So we printed big, glowing reports of how BYU would have a great freshman team.

But there were many Cougar fans—on campus and off—who had seen other "great-on-paper" BYU teams fall miserably in Brigham Young's notorious football quagmire after they got into competition.

SO WE WATCHED these skeptics condescendingly read the glowing reports with tongue in cheek. Yes, a lot of people thought it was all ballyhoo. Some of them even told us so.

Then came a report from Logan on a cold Thursday afternoon that the new freshmen underdog Kittens had tromped Utah State, 31-7. That score raised a lot of eyebrows. The subsequent smashing victory over Dixie should have convinced even the worst of the carping critics that BYU has got a freshman football team this year.

THE KITTENS MAY be a collection of high school all-stars but they are anything but "prima donnas." They are the hardest working bunch of kids I've ever worked with," their coach, Hal Tolbert, has often said. They've practiced hard, worked hard and played hard all year.

They deserve our support Saturday afternoon. There's no guarantee that they'll win, of course, but we will promise this: They'll give it all they've got.

Secret Weapon? . . .

Freshman Coach Christens Gridders With New Names

COME 1:30 Saturday afternoon in BYU Stadium. Snow Junior College will be facing a

FROSH GAME FREE

Students will be admitted to the Brigham Young University freshman-Snow College football game Saturday on their activity cards.

It will be necessary, however, to show activity cards at the gate. Seats will be on a first come, first served basis.

Tickets will be on sale for non-students at $1 each.

"Slugger," a "King Cole," a "Flea," a "Bowl Bowl," a "Rowdy," a "Volcano," "Flash," a "Stoppin'," a "Mule," a "Hopper," a "Spook," a "Machine Gun," and an "Ox."

Frosh Mentor Max Tolbert supplements his coaching ascribing imaginative nicknames to his players. Hence, the Baby defense will have to stop Kitten backfield of "Flea" Chamberlain, "Stopin'" Starr, "Spoke" Hooper, and "Machine Gun" Joe McGinn.

SNOW BACKS will be playing into such names as "Topper" Freestone and "Elvis" Kelder, guards; Lennie Dens "The Menace" and "Rowdy" Reeve, tackles; "Rocky" Fillmore, and "King Cole" Blodgett and "Flipper" Merrill, ends.

Others who will see action against Snow are "Volcano" Kapele, tackle, "First Down" Brown, "Rip" Rangwood and "Slugger" Reese, halfbacks; and "Wild and Wooley" Wooley, fullback, end Dale "Cat Deal" and Jay Godiman, guard.

"MUGGSY" MAX Tolbert reports that his team is in b physical condition despite serious injuries. Asked how the team stacked up against Snow the coach grinned broadly, guess we're underdogs again.
